South East Cornerstone Public School Division - Response Letter

Mr. Superintendent,

This is an acknowledgement that we have received your recent letter alleging violation of s. 367 of *The Education Act, 1995* by acting with rude or indecent behaviour when we attended the Redvers School on Tuesday, November 24th, 2020.

Let me first and foremost object to the accusation that we conducted ourselves rudely or indecently. We have not. There is **nothing rude or indecent about objecting to an unconstitutional provincial mandate requiring the use of masks in public schools**. There is nothing rude or indecent about raising one's voice in the face of oppression either, and this is how we currently characterize the government administration at the provincial level and beyond.

In March of this year, we served the Government Of Saskatchewan a [Notice Of Objection](#) in regard to their declared state of emergency on the grounds that it is **unprecedented and unnecessary** and that it has a high probability of causing undo suppression of our economic conditions – especially in rural areas of the province. We believe these words to be self-evident today and intend on continuing to stand in objection to this declared state of emergency.

We interpret your immediate decision to prohibit us from entering the school or being on school property in response to our activism (read: inquiring in-person about a public schools mask policy) as relatively undiplomatic and perhaps even *unbecoming* of a superintendent dealing with a federal party leader headquartered in the municipality. No effort to listen to our perspective or address our questions has been made whatsoever. This is disappointing to us.

Mandating masks in public facilities, including for staff and students at school is **uncalled for and unnecessary** unless the current government administration is able to justify them.

I'm willing to bet that if an anonymous poll were held today, **the majority of students and staff alike would vehemently reject mandatory masks**.

As an alumni, this is not the first time I've raised my voice at Redvers School in objection to something I believe to be fundamentally wrong (mandatory masks) and if I have my way, it most certainly won't be the last ...

Sincerely,

Mr. Travis Patron
